CHAPTER 115: COUNTY POLICIES

ARTICLE I. COLLECTIVE BARGAINING

SECTION 115.010: PURPOSE

In accordance with Article I, Section 29 of the Constitution of the State of Missouri and recent Missouri Supreme Court and Missouri Court of Appeals decisions regarding public sector labor law, it is appropriate for Platte County to adopt legislation establishing a framework within which personnel employed by the Platte County Sheriff's Office can bargain collectively through representatives of their own choosing. Nothing in this Article shall be construed as encouraging or requiring employees to engage in collective bargaining.

SECTION 115.020: COVERAGE

1. The provisions of this Article shall apply to all regular full-time and part-time sworn personnel employed in the Platte County Sheriff's Office ("Sheriff's Office"), exclusive of managerial and confidential employees.
 - a) For purposes of this Section, Lieutenants and above shall be considered "managerial employees."
2. It is the determination of the Platte County Sheriff ("Sheriff") that all regular full-time and part-time sworn personnel employed in the Sheriff's Office, exclusive of managerial and confidential employees, constitute the most appropriate unit for the purpose of collective bargaining ("Eligible Employees"). Any election conducted for the purpose of allowing employees to designate a exclusive bargaining representative, as provide below, shall take place within this unit, subject to the following restrictions and exclusions:
 - a) To avoid the division of loyalties and conflicts of interest, supervisory employees shall not be included within the same bargaining unit as employees they supervise. Further, the same labor organization shall not represent both non-supervisory and supervisory employees within the Sheriff's Office.
 - b) For purposes of this Section, Sergeants shall be considered "supervisory employees."
3. Managerial and/or confidential employees shall not be included in any bargaining unit.

SECTION 115.030: DESIGNATION OF EXCLUSIVE BARGAINING REPRESENTATIVE

1. Any labor organization wishing to represent Eligible Employees of the Sheriff's Office, in either a supervisory or non-supervisory bargaining unit, shall send a certified letter to the Sheriff and the Platte County Director of Human Resources ("Director of Human Resources"). The letter shall include signed authorization cards of at least thirty percent (30%) of the employees in the proposed bargaining unit, indicating that they wish to select the labor organization in question as their exclusive bargaining representative for the purpose of collective bargaining. The cards must be dated and signed within twelve (12) months of the receipt of the certified letter.
2. As soon as practicable following receipt of such cards, the Sheriff and Director of Human Resources shall jointly request a neutral third party to validate the signatures on the cards, evaluate the construct of the requested bargaining unit, and issue a written determination confirming the appropriateness of the requested bargaining unit and confirming that at least thirty percent (30%) of the current employees in the proposed bargaining unit have signed cards.

3. The neutral third party shall issue his/her written determination to the Sheriff and Director of Human Resources without unnecessary delay, whereupon the Sheriff and Director of Human Resources shall jointly send notice of the determination to the labor organization.
4. If the neutral third party determines that the requested bargaining unit is appropriate and that at least thirty percent (30%) of the employees in the unit have signed valid cards, the Sheriff may appeal the determination within fourteen (14) days of receipt. Such appeal shall be directed to the neutral third party, in writing, and shall state the specific grounds for the appeal.
5. If the neutral third party determines that the requested bargaining unit is not appropriate or that the signature cards are insufficient, the labor organization may appeal the determination within fourteen (14) days of receipt. Such appeal shall be directed to the neutral third party, in writing, and shall state the specific grounds for the appeal.
6. Within thirty (30) days of the receipt of a written appeal from either the Sheriff or the labor organization, the neutral third party or designee shall conduct a hearing during which the labor organization and the Sheriff or designee shall have the opportunity to present their positions and evidence on the disputed issues. The neutral third party or designee shall conduct the hearing using the procedures that they deem, in their discretion, to be appropriate; provided, however, that such hearing is intended to be investigatory and not adversarial, and the formal rules of evidence shall not apply.
7. Within ten (10) days after the hearing, the neutral third party or designee shall issue a final written determination. The neutral third party or designee's determination shall be final and binding.
8. If the neutral third party determines that the requested bargaining unit is appropriate and is supported by a sufficient showing of interest as set forth herein, a secret ballot election shall be scheduled as the Supreme Court of the United States has recognized that union authorization cards are "admittedly inferior to the election process as a means of reflecting employee choice."

SECTION 115.040: ELECTION PROCEDURES

1. The Sheriff and the labor organization that has presented the signature cards shall select a mutually agreeable date for a secret ballot election to take place.
2. The election shall be held at the Platte County Government Complex in Platte City, Missouri and shall be set for a date falling no less than four and no more than six weeks after the day upon which the neutral third party determines that the requested bargaining unit is appropriate and that the thirty percent (30%) threshold has been met, unless the Sheriff and the labor organization mutually agree on a different time frame for the election.
3. Once an election date has been set, the Sheriff or his/her designee shall issue a notice informing all eligible voters of the date, time and place of the election, a description of the bargaining unit, and the identity of the labor organization(s) that will appear on the ballot. Such notice shall be distributed to all eligible voters and shall be posted within the Sheriff's Office no less than ten (10) days prior to the election date.

4. For purpose of this Section, eligible voters shall consist of all Eligible Employees who are employed in a position included in the defined bargaining unit for a period of ten (10) consecutive calendar days prior to the election date.
5. At least ten (10) calendar days prior to the election date, the Sheriff shall furnish a list including the names and job titles of all eligible voters to a representative of the Labor Organization. Any disputes regarding whether an employee should be an eligible voter should be presented to the Sheriff at least five (5) days prior to the election date for resolution.
6. From the time the election notice is first posted until the date of the election, all representatives, agents and employees of the Sheriff's Office and the County shall have the ability to freely express their opinions about whether or not the labor organization should be selected as the exclusive bargaining representative of the employees in the proposed bargaining unit. However, no employee of the Sheriff's Office and no representative of the labor organization shall attempt to threaten, intimidate, coerce or otherwise restrain any eligible voter in the exercise of their individual choice to support or oppose the selection of the labor organization in question as the exclusive bargaining representative of the employees in the bargaining unit. Additionally, such expression of opinions shall not interfere with the day to day operations of the Sheriff's Office.
7. Sheriff's Office and/or County equipment and facilities shall not be utilized by any labor organization or its supporters to advocate, express any views, argument or opinion regarding the collective bargaining process or for the dissemination thereof in written, printed, graphic or visual form. Nothing in this Section shall be construed as limiting the right of the Sheriff or a supervisor or manager to express the views, arguments or opinions of the Sheriff or the dissemination thereof in written, printed, graphic or visual form.
8. The election shall be conducted by secret ballot, using such procedures as the Sheriff shall determine are appropriate for ensuring the privacy and security of each employee's vote, including, but not limited to, a prohibition against electioneering in or about the polling location.
 - a) The secret ballot shall read:

"Do you wish to select [name of labor organization] as the exclusive bargaining representative for [description of bargaining unit] employed within the Platte County Sheriff's Office?"

The ballot will include check boxes for marking "yes" or "no" in response to this question.

- b) In the event that more than one labor organization seeks to represent employees in the unit, and in the event that more than one labor organization has obtained signatures from at least thirty percent (30%) of the employees in the unit stating that they wish to designate the labor organization as their exclusive bargaining representative, then the ballot shall read:

"Do you wish to select [name of labor organization A], [name of labor organization B] or no labor organization as the exclusive bargaining representative for [description of bargaining unit] employed within the Platte County Sheriff's Office?"

The ballot will then include check boxes for marking "I wish to select [name of labor organization A] as my exclusive bargaining representative," "I wish to select [name of labor organization B] as my exclusive bargaining representative," and "I do, not wish to select

any labor organization as my exclusive bargaining representative" in response to this question

9. The Sheriff's Office and Labor Organization may each designate one or more observers for the poll, who shall be non-supervisory employees of the Sheriff's Office or other office of Platte County unless otherwise stipulated by the parties. Only one observer for each of the interested parties may be at a polling location at any given time.
10. Any designated observer may challenge an employee's eligibility to vote. Challenged ballots shall be folded and placed in a sealed envelope with the name of the voter plainly written on the outside of the envelope and will not be considered unless they might affect the result of the election.
11. Once the poll is closed the Sheriff, or his/her designee, and the Director of Human Resources shall oversee the counting of the ballots. A representative of the labor organization shall have the right to be present during the counting of the ballots.
12. Any labor organization receiving more than fifty percent (50%) of the votes of all eligible voters shall be designated and recognized as the exclusive bargaining representative for all employees in the bargaining unit.
13. No more than one election shall take place in any bargaining unit within the same twelve (12) month period. Once an election takes place, the Sheriff shall reject authorization cards from a labor organization or employees within the bargaining unit seeking another election for one full calendar year after the date of the election. This paragraph shall not restrict the holding of a decertification election as set forth herein within twelve (12) months of the certification of a bargaining representative.

SECTION 115.050: DECERTIFICATION PROCEDURES

1. Employees within the bargaining unit shall have the right to seek to decertify the labor organization as their exclusive bargaining representative at any time.
2. If any employee within the bargaining unit presents to the Sheriff signature cards or a written petition bearing the signatures of at least thirty percent (30%) of the employees within the bargaining unit stating that those employees no longer wish to be represented by the labor organization in question, the Sheriff shall request a neutral third party to validate the signatures on the cards.
3. If the neutral third party confirms that at least thirty percent (30%) of the employees in the bargaining unit have signed decertification cards, the Sheriff and the designated representative of the labor organization shall select a date for a decertification election. Such election shall take place at least four weeks after the neutral third party determines the thirty percent (30%) threshold has been met and no later than six weeks after the determination. Notice of such election shall be distributed to all employees within the bargaining unit and posted within the Sheriff's Office.
4. If more than fifty percent (50%) of the employees in the bargaining unit cast votes to terminate the labor organization's representation of the employees in the bargaining unit, the labor organization shall immediately cease to represent the employees in the bargaining unit.

5. In the event of the decertification of the exclusive bargaining representative of the employees in any bargaining unit within the County, all terms and conditions of employment existing at the time of decertification shall remain in place until such time as those terms or conditions of employment are altered by the Sheriff.

SECTION 115.060: COLLECTIVE BARGAINING PROCESS

1. Within four weeks after a labor organization is certified as the exclusive bargaining representative for the employees in a bargaining unit as set out above, a team of individuals comprised of one or more representatives of the Sheriff's Office (designated by the Sheriff) and one or more representatives of the County (designated by the County Commission), hereafter referred to as the "Management Team," shall meet and confer with representatives of the labor organization over the wages, benefits and other terms and conditions of employment for the employees within the bargaining unit.
2. The parties shall bargain in good faith and make an earnest effort to reach a mutually acceptable agreement, but no party shall be required to offer any particular concession or withdraw any particular proposal.
3. Neither the Sheriff's Office nor the County shall pay any labor organization representative for time spent participating in collective bargaining or preparing for collective bargaining, except to the extent the person in question is an employee of the Sheriff's Office who elects to use accrued paid time off to cover the time so spent.
4. Any bargaining related to economic terms outside of the then current fiscal year must be completed at least thirty (30) days prior to the statutory deadline for the Sheriff to submit his/her proposed budget to the County Commission. In the event the parties are unable to complete bargaining within the stated time period, the negotiations will be deemed to have reached an impasse and will subject to the impasse resolution procedures set forth herein.
5. During the collective bargaining process, the Sheriff may not agree to any provision related to funds not already appropriated to the Sheriff nor provisions under the statutory purview of the County Commission without the express consent of the County Commission. Likewise, neither the County Commission nor any individual Commissioner may agree to any provision related to funds already appropriated to the Sheriff nor provisions under the statutory purview of the Sheriff without the express consent of the Sheriff.
6. If the parties reach an agreement, the proposed labor agreement shall be presented to both the Sheriff and the County Commission for approval or rejection as set forth herein.
7. If after a reasonable period of negotiations, a dispute exists over the inclusion or deletion of a term of the proposed labor agreement, either party may declare an Impasse.
 - a) Upon notification in writing of an impasse, a representative from the Federal Mediation and Consultation Service (FMCS) shall meet with the parties to attempt to get the parties to agree over the disputed term(s).
 - b) If after the participation of the FMCS for a reasonable period of time, the parties are still unable to reach an agreement, the Management Team may present its last and final proposal to both the Sheriff and the County Commission for approval or rejection as set forth herein.

8. A proposed labor agreement presented to the Sheriff and the County Commission for approval or rejection may be approved by the Sheriff and/or the County Commission in its entirety or in parts thereof.
9. If either the Sheriff or the County Commission rejects any portion of the proposed labor agreement, the Sheriff and the County Commission may:
 - a) return the rejected portions of the agreement to the parties for further bargaining; or
 - b) adopt a mutually agreeable replacement provision of their own decision; or
 - c) state that no provision covering the topic in question shall be adopted.
10. The decision of the Sheriff and the County Commission with regard to approving or rejecting a proposed labor agreement will be final and binding.
11. Once a proposed labor agreement has been approved by the Sheriff and the County Commission, it will be submitted to the labor organization for ratification by the bargaining unit members, which vote shall be completed within thirty (30) days after the agreement is submitted to the labor organization.
12. Nothing herein requires the bargaining unit employees, the Sheriff or the County Commission to approve any proposed labor agreement.

SECTION 115.070: CONTENT OF LABOR AGREEMENTS

1. Every labor agreement that has been signed and ratified will have a finite duration clearly established within the terms of the agreement.
2. Labor agreements negotiated between the parties may cover wages, benefits and all other terms and conditions of employment for employees within the bargaining unit, subject to the following limitations:
 - a) Every labor agreement shall include a provision reserving to the Sheriff and his/her designees all authorities and abilities not expressly covered by a provision of the labor agreement.
 - b) Every labor agreement shall expressly prohibit all strikes, work slow-downs, work stoppages and picketing of any kind. Every labor agreement shall include a provision acknowledging that any employee who engages in any strike, concerted effort to slow down work, concerted refusal to work, or who pickets over any personnel matter shall be subject to immediate termination of employment.
 - c) Every labor agreement shall expressly provide that the Sheriff and the County Commission retain all abilities provided to their offices under the laws of the State of Missouri unless such statutory ability is specifically relinquished in the agreement. Every labor agreement shall also provide that a statutory ability is only relinquished if the ability in question is expressly identified, including the statute or case name which is the source of the ability. Additionally, every labor agreement shall include a provision that no legally conferred ability may be impliedly relinquished by the agreement.

SECTION 115.080: EFFECT OF LABOR AGREEMENT

1. In the event of a bona fide, unexpected and significant budget shortfall, either the Sheriff or the County Commission shall have the right to call the parties together to seek modification of economic terms of any labor agreement.
2. Should the Sheriff or the County Commission deem it necessary to modify the economic terms of any labor agreement, the initiating party shall notify the relevant labor organization and the other affected office holders (e.g. the Sheriff or the County Commission respectively) of the necessity to amend, including the reasoning of the necessity and shall provide a period of thirty (30) days during which the Management Team and the labor organization shall bargain in good faith over any necessary adjustments to the economic terms of the agreement.
3. If, at the end of the thirty day period, the parties have been unable to agree upon modifications that meet the requirements of the Sheriff and the County Commission, an economic provision of the agreement related to the need may be rescinded to the economic extent required by the budget shortfall. If the budget shortfall results from an unexpected loss of revenue such that the County is unable to allocate funds already appropriated to the Sheriff, any reduction in appropriations must be made in strict compliance with procedures for reduction of the annual budget, as set forth in Section 50.622, Missouri Revised Statutes, as amended or renewed.

SECTION 115.090: VALIDITY AND ENFORCEMENT

1. If the State of Missouri passes any law governing collective bargaining for law enforcement personnel, then to the extent any of the provisions established herein are inconsistent with the Missouri statute, the inconsistent provisions shall be superseded in whole or in part by such statute.
2. If any court of competent jurisdiction shall declare any of the provisions established herein to be unenforceable under any state or federal statute, regulation or other authority, the unenforceable portion of the provisions shall be removed, but all other provisions contained herein shall remain in effect.
3. Nothing in this Section shall be construed as requiring either the Sheriff or the County Commission to engage in any collective bargaining activity beyond those that are required by Missouri law.

SECTION 205.040: ANIMAL CARE

Any person who owns or possesses an animal subject to this Section and Subsections thereof shall abide by the following requirements for animal care:

1. *Vicious dogs.* No person shall own or possess a vicious dog except in accordance with the following requirements:
 - a. *Vicious dog confinement.* All vicious dogs shall be securely confined within a building or in a securely enclosed and locked kennel.
 - b. *Standards for vicious dog kennels.* A kennel used for keeping a vicious dog must have secure sides of at least six (6) feet in height and a secure top attached to the sides to prevent escape. Such kennel must have a secure bottom or floor attached to the sides of the kennel or the sides of the kennel must be embedded in the ground no less than two (2) feet. The ground beneath the gate shall be secured by posts embedded into the ground no less than one (1) foot with the bottom of the gate being no more than two (2) inches above the ground. In the event of a dispute over the appropriate size, the guidelines of the United States Department of Agriculture shall apply. The kennel must be locked with a key or

combination lock when such animals are within the structure. Any such kennel must comply with all applicable zoning and building regulations.

- c. *Building confinement of vicious dogs.* When confined within a building, no vicious dog may be kept on a porch, patio or in any part of a building that would allow the dog to leave such building on its own volition. No such dog may be kept in a building when windows are open or when screen windows or screen doors are the only obstacle preventing the dog from leaving the building.
- d. *Control of vicious dogs.* No person shall permit a vicious dog to go outside its kennel or building unless the dog is muzzled and restrained by a leash no longer than four (4) feet in length and that person has physical control of the leash. The muzzle shall be made in a manner that will not cause injury to the dog or will not interfere with its vision or respiration but shall prevent it from biting any human or animal. Such dogs shall not be leashed to inanimate objects such as trees, posts or buildings.
- e. *Vicious dog signage.* Signs shall be conspicuously posted upon kennels of vicious dogs plainly visible from all sides in letters at least four (4) inches high stating the following: "Beware of Dangerous Dog".

Such insurance policy shall provide that no cancellation of the policy will be made unless ten (10) days' written notice is first given to the Animal Control Officer.
- g. *Classification of dog as vicious.* Any Animal Control Officer who finds any dog to be a vicious dog, as the term is defined in these regulations, shall make a written finding thereof and serve notice of that finding as well as a requirement to comply with those regulations as they apply to vicious dogs upon the owner or possessor of such animal as soon as reasonably practicable. Any owner or possessor of a dog found to be a vicious dog as herein prescribed may contest that determination by filing a written request with the Platte County Commission to review and set determination within three (3) business days of being served with notice of the determination. The Platte County Commission shall schedule an informal hearing with the owner or possessor of a dog subject to such determination within five (5) business days of receipt of such request for review. The Platte County Commission at such hearing shall receive all relevant evidence presented by such owner/possessor as well as the Animal Control Officer making determination and shall decide at the conclusion of the hearing whether to affirm or set aside the determination. Any final decision of the Platte County Commission shall be in writing stating the facts upon which it is based and whether under these regulations such dog is in fact a vicious dog. Any further appeals thereafter shall be as provided by law. Any final determination by the Platte County Commission that a dog is a vicious dog as defined in these regulations or any such determination by an Animal Control Officer to which no timely request for review is made shall create a conclusive presumption that the dog determined to be a vicious dog is in fact and in law a vicious dog as defined in these regulations for purposes of any legal proceedings after such final determination applicable to such dog or owner or possessor thereof.

However, a finding that a dog is a vicious dog pursuant to the provisions of this Section shall not be a condition precedent to institution of any civil, quasi-criminal or criminal under these regulations or any other provision of law. In any legal proceeding where a final determination has not been made pursuant to this Section, the question of whether or not a dog is vicious shall be a factual issue to be determined as a part of such proceeding.

- h. *Destruction of vicious dogs.* A vicious dog shall be ordered humanely destroyed by order of the Associate Circuit Court or Circuit Court if such court finds after hearing that a dog is vicious as the term is defined in these regulations by presumptions or otherwise and that one (1) of the following factors are applicable:
- (1) The owner or possessor of such vicious dog has previously pled guilty to or been found guilty of any offense pertaining to such dog which involves failing to adequately confine or control such dog, or
 - (2) The owner or possessor has factually failed to comply with the provisions of these regulations pertaining to the confinement and control of vicious dogs on one (1) or more occasions after such dog has been determined to be a vicious dog and the owner or possessor was served with notice thereof, or
 - (3) The vicious propensities of the vicious dog are such that such dog presents an imminent threat to the public health and safety, or
 - (4) The vicious dog has seriously injured or killed a human being.

An order of destruction provided for in this Section may be sought and obtained in an independent civil equitable proceeding or requested relief as a part of any quasi-criminal or criminal proceeding applicable to a vicious dog or owner or possessor thereof. 2. *Vaccinations for dogs, cats and ferrets.* No person shall own or possess a dog, non-feral cat or ferret over three (3) months of age within the County, unless such dog, cat or ferret is kept vaccinated appropriately with a vaccine approved and listed in the current year's Rabies Compendium and administered as specified therein.

When the owner or possessor of a wounded animal is unknown, the Animal Control Officer shall pick up the animal and transport it to an animal shelter established pursuant to Section 205.060(3) where it will be humanely euthanized or treated at the direction and discretion of the Chief Animal Control Officer following consultation with a

express consent from such officer for removal. (County Order No. 6-96, 5-30-96; County Order No. 14-10, 6-28-10)

SECTION 205.070: ANIMAL IMPOUNDMENT

Animals subject to the provisions of these regulations or State law may be impounded in accordance with the following regulations.

1. *Impoundment, general.* Any animal owned, possessed or otherwise found to be in violation of these rules and regulations or other provision of State law may be impounded and placed in a County animal shelter by an Animal Control Officer, a Law Enforcement Officer or other person authorized by law to impound animals. The owner or possessor of a dog or any other animal captured due to violations of these rules and regulations shall be responsible for the cost of keeping said dog or other animal whether or not said animal is redeemed. These costs must be paid prior to the release of said dog or other animal.
 - a. *Notification.* The Animal Control Officer shall, after the impounding of any animal, promptly attempt to provide notice by telephone or notice in writing to the owner or possessor if such owner or possessor can be identified by the tags or registration required in these rules and regulations. “*Notice in writing*” means notice deposited as first class mail in the United States mail and addressed to the owner or possessor at his/her last known address or notice personally delivered to the owner or possessor. No liability shall be attached to the County nor any agents or employees of the County, including the Animal Control Officer, in cases where no such identification or registration exists or where the information included on the identification or registration is not current or accurate.
2. *Dog, cat or ferret impoundment for observation.* Any dog, cat or ferret which bites or otherwise injures any human being shall be impounded for observation under the requirements of Subsection (5).
3. *Impoundment of suspected rabies carrier.* Any warm-blooded animal other than a dog, cat or ferret which is reasonably suspected to be infected with rabies in the opinion of an Animal Control Officer may be seized, impounded and upon direction of the Platte County Sheriff may be humanely euthanized and submitted for rabies diagnosis. Any warm-blooded animal which is reasonably suspected to be infected with rabies in the opinion of an Animal Control Officer may be destroyed upon direction of the Platte County Sheriff if the attempted seizure of the animal would constitute an unreasonable risk to an Animal Control Officer or others.
4. *Redemption and disposal of impounded animals.* Unless otherwise specified in these rules and regulations, any animal impounded pursuant to the provisions of Subsection (1) of these rules and regulations may be redeemed by its owner or possessor at the place of impoundment during normal business hours with authorization of the Animal Control Officer by payment of normal and customary charges imposed by the facility for the impoundment and boarding of such animal provided the owner or possessor thereof proves to the satisfaction of the supervisor of the facility or the Animal Control Officer that he/she has complied with the provisions of Section 205.040(2) of this Chapter, if applicable. The Animal Control Officer shall make a reasonable effort, consistent with Subsection (1)(a) above, to identify and notify the owners or possessors of the impoundment of their animals and of the redemption and disposal procedures prescribed herein. Any animal which is not redeemed within five (5) business days after

impoundment under Subsection (1) may be disposed of as follows at the discretion of the Platte County Sheriff.

- a. If the owner can be ascertained and the animal is not diseased or disabled beyond recovery for any useful purpose, the animal shall be held for recovery by the owner. The owner shall be notified within five (5) business days of impoundment by phone or in writing of the animal's location and recovery procedures. The animal shall be held for ten (10) business days. An animal unclaimed after ten (10) business days will be released or euthanized in accordance with the procedures set forth in this subsection.
 - b. If no owner can be identified by means of Section (1)(a) the animal shall not be disposed of, unless diseased or disabled beyond recovery for any useful purpose, until the expiration of a minimum of five (5) business days, during which time the public shall have clear access to inspect or recover the animal through time periods ordinarily accepted as usual business hours. An animal unclaimed after five (5) business days will be released or euthanized in accordance with the procedures set forth in this subsection.
 - (1) *Release to any person.* The animal may be released to any person desiring such animal upon payment of any applicable impoundment and boarding charges and compliance with Section 205.040(2) if applicable, provided that said person will sign a statement agreeing to provide humane care for the animal and to not permit its use for laboratory or experimental purposes and, provided that, if the animal is not already spayed or neutered, payment of the cost for spaying or neutering by the animal shelter.
 - (2) *Release to Humane Society.* The animal may be released to a humane society or animal rescue organization at no charge.
 - (3) *Euthanasia.* The animal may be subject to humane euthanasia provided the owner or possessor cannot be notified of impoundment after reasonable effort to notify the owner or possessor, or the owner or possessor cannot be identified or the owner or possessor fails to redeem such animal within the redemption period after notification. Now owner or possessor shall be relieved of liability for payment of an impoundment or boarding charge incurred as may be prescribed by law by virtue of an animal being euthanized as provided herein. Euthanasia shall occur only upon written direction of the Platte County Sheriff or his/her designee.
7. *Impoundment for observation, disposition.* Any animal impounded pursuant to Subsection (2) of this Section shall be securely confined by an Animal Control Officer at a County animal shelter for a period of ten (10) days after the reported bite or injury to a human being for observation for symptoms or manifestations of rabies. If such animal exhibits symptoms or manifestation of being infected with rabies, in the opinion of a licensed veterinarian, then such animal shall be euthanized and submitted for rabies diagnosis upon authorization of the Platte County Sheriff. If such animal exhibits no symptoms or manifestations of rabies after the required observation period, then such animal may be redeemed or disposed of in accordance with the provisions of Subsection (4) of this Section. The Animal Control Officer may authorize the secure confinement of an animal for the observation period specified above by the owner or possessor of such animal or a licensed veterinarian of the owner's or possessor's choice if it is proven to the Animal Control Officer's satisfaction that such animal had been vaccinated for rabies at the time the bite or injury to a human being occurred and such confinement would not present an unreasonable risk of danger to the public health. Any ferret

impounded pursuant to Subsection (2) shall be handled in accordance with the then current Rabies Compendium. (County Order No. 6-96, 5-30-96; County Order No. 14-10, 6-28-10)

SECTION 205.075: FERAL CATS

Feral cats found within an urban service area may be impounded in accordance with the following regulations:

1. *Initial complaints.* An Animal Control Officer, law enforcement officer or other person authorized by law to impound animals shall have authority to impound feral cats found within an urban service area with the cooperation of an owner or tenant of real property within the urban service area under guidelines established and approved by the County Commission.
2. *Impoundment.* Upon taking possession of a feral cat, the Animal Control Officer shall transport the feral cat to an animal shelter approved by either the County Commission or the Animal Control Officer. The Animal Control Officer shall authorize the personnel at the animal control shelter to administer humane euthanasia to the feral cat.
3. *Release to Humane Society.* The Animal Control Officer may authorize release of the animal to a humane society or other animal control rescue organization at no charge at the discretion of the Animal Control Officer. (County Order No. 14-10, 6-28-10)

SECTION 205.080: INTERPRETATION AND SEVERABILITY

The invalidity of any particular regulation enacted herein shall not affect the validity of any other provision and all regulations hereunder shall be construed as consistently and harmoniously as possible with each other and other applicable provisions of law. These regulations also shall be liberally construed to the fullest extent permitted by law to effectuate the broad remedial purposes for which they are intended. (County Order No. 6-96, 5-30-96; County Order No. 14-10, 6-28-10)

The penal remedy provided herein shall not be exclusive and the County may seek and obtain any other relief provided for in equity or at law. (County Order No. 6-96, 5-30-96; County Order No. 14-10, 6-28-10)

SECTION 210.030: PERMIT REQUIREMENTS FOR ALL CAFOS

- A. No CAFO shall be erected, constructed, developed, used, operated, occupied, expanded to a different classification of CAFO or otherwise established in Platte County until a County health permit 137 authorizing the same has been issued by the Platte County Commission. Class II CAFOs in existence as of the effective date of this Chapter may expand to Class IC by notifying the County Commission and paying the permitting charges. Security requirements and remediation fees will not be assessed pursuant to Section 210.050 of this Chapter. To apply for a County health permit, the proposed CAFO shall submit to the County Commission all of the application materials submitted to the Department of Natural Resources, a completed application as set forth in Appendix B, held on file in the office of the County Commission, and an application fee as established pursuant to Section 210.090 of this Chapter. If the CAFO is issued a construction permit and an operating permit and if the proposed CAFO meets the requirements of this Chapter, then the County Commission shall also issue a County health permit.
- B. At least one (1) public hearing shall be held by the County Commission before approving any County health permit. Such public hearing may be continued from time to time and additional hearings may be held. The receipt and consideration of evidence at said hearings shall comply with the requirements of Section 536.070, RSMo.
- C. Once a CAFO has received a County health permit, the CAFO shall apply for a renewal of said permit each calendar year. All applications for renewal permits shall be submitted, along with the applicable renewal fee, at least thirty (30) days prior to the anniversary date of the issuance of the initial County health permit. If the County Commission determines that the CAFO has complied in all respects with the permit previously issued, then the County Commission will issue the renewal permit. Otherwise, the County Commission may not issue a renewal permit and the CAFO shall immediately cease operation.
- D. It shall be a violation of this Chapter and unlawful for any person not exempt from this Chapter to operate a CAFO without first obtaining a County health permit from the County Commission.
- E. It shall be a violation of this Chapter and unlawful for any person not exempt from this Chapter to operate a CAFO with a number of animal units in excess of the classification number specified in the permit issued by the County Commission.

- F. It shall be a violation of this Chapter and unlawful for any person not exempt from this Chapter to apply animal waste or animal wastewater in a manner inconsistent with the requirements of this Chapter. (County Order No. 58-00, 10-26-00)

SECTION 210.040: RULES APPLICABLE TO ALL CAFOS

The County Commission shall not issue a County health permit unless and until the County Commission has rendered findings of fact and conclusions of law that the proposed CAFO complies in all respects with the standards and criteria established herein. If the proposed CAFO does not comply in any respect with the standards and criteria established in this Section, the application for a County health permit shall be denied.

1. *Generally.* The proposed CAFO shall be in compliance with the provisions of Sections 210.040 through 210.060 of this Chapter, as applicable.
2. *Waste disposal.*
 - a. Design of the waste lagoons shall comply, at a minimum, with ANSI/ASAE EP403.2 (August 1993), published by the American Society of Agricultural Engineers, which standard is hereby incorporated by this reference as if set forth in its entirety herein, provided however, that where a different standard is prescribed by this Chapter, the provisions of this Chapter shall govern. Center pivot irrigation shall not be permitted as a method of applying animal wastewater into the soils.
 - b. Dilution water shall be provided at a rate of not less than four (4) times the annual amount of excreted manure. No animal waste shall be discharged into the lagoon until it has first been filled to not less than fifty percent (50%) of its design volume with fresh water which has not previously come into contact with animal waste. The waters in the lagoon shall at all times maintain a pH level of not less than 6.7. A minimum of two (2) feet of freeboard shall be maintained between the crest of any spillway or outflow device and the top of the lagoon embankment.
 - c. A covered storage basin or covered manure storage structure may be used instead of a waste lagoon.
 - d. The lagoon system and land application shall comply with the minimum requirements of 10 CSR 20-8 (March 11, 1979), which provision is hereby incorporated by reference as if set forth in its entirety herein, provided however, that if any requirement therein conflicts with any requirement of this Chapter, the provisions of this Chapter shall apply.
3. *Water quality.*
 - a. All CAFOs shall be designed in such a manner as to avoid the unlawful degradation of the quality of surface or subsurface waters, watercourses or other bodies of water as defined in Chapter 7 of Division 20 of the Code of State Regulations.
 - b. No lagoon, confinement area or plant filter area shall be located closer than three hundred (300) feet to a water source drawing from a bedrock formation with a sealed casing or within one hundred (100) feet of any public or private water well.

c. The provisions of Subparagraphs (1)-(4) below shall apply only to any Class IB or Class IA CAFO and shall not apply to any CAFO existing on the effective date of this Chapter which does not exceed the number of animal units for a Class IC CAFO. The operator shall install monitoring wells as follows:

(1) At least one (1) monitoring well shall be installed upgradient from each confinement area and livestock lagoon, and at least one (1) monitoring well shall be installed downgradient from each confinement area and each livestock lagoon. Where a livestock lagoon receives waste from more than one (1) confinement area, one (1) upgradient monitoring well may be installed for all of the confinement areas and the livestock lagoon, and one (1) monitoring well may be installed downgradient from the confinement areas and livestock lagoons.

(2) At least one (1) monitoring well shall be installed upgradient from each area where waste is disposed (areas designated as a soil plant filter area or where subsurface injection occurs), and at least one (1) monitoring well shall be installed downgradient from each such area.

(3) The upgradient wells shall be used to establish a baseline for the chemical constituents set forth in Subsection (3)(d), below. The downgradient wells shall be used to monitor changes in the contaminant levels of the chemical constituents set forth in Subparagraph (4) below on a quarterly basis. The operator shall submit a report describing any changes in contaminant levels to the Platte County Commission on a quarterly basis. In no event shall the pollutant concentrations in water quality samples taken from the downgradient wells exceed the baseline established by the upgradient wells or the maximum contaminant levels established by the Missouri Department of Natural Resources, whichever is more restrictive. The "the maximum contaminant levels established by the Missouri Department of Natural Resources" means and refers to the acute toxicity criteria as set forth in 10 CSR 20-7.031 (filed March 1, 1996) which is hereby incorporated by reference as if set forth in its entirety herein, provided however, that the water quality standards shall not be waived as provided in Subsection (2)(B)(3) of 10 CSR 20-7.031.

(4) The following chemical constituents shall be monitored pursuant to this Subsection (3):

Nitrate nitrogen (NO₃)

Nitrite nitrogen (NO₂)

Kjeldahl nitrogen

Ammonia nitrogen

Total phosphorous

Dissolved phosphorous

E. coli (escherichia coli) or fecal coliform bacteria

pH

Temperature

Biochemical oxygen demand

Sodium

d. No lagoon shall be located over a shallow aquifer. Animal waste and animal wastewater shall not be applied within one thousand (1,000) feet of any sink hole, well, spring or other water supply or one hundred (100) feet from any stream (including intermittent streams) or strip pits. This rule shall not apply to waste lagoons on the CAFO property but shall apply to all other wells, water supplies, streams, ponds, strip pits, lakes, springs and sink holes on the CAFO property. In Platte County, the larger shallow aquifers include the flood plains of both the Missouri and Platte Rivers. Both of these aquifers have significant interactions with the rivers. Other shallow aquifers in Platte County may exist in the flood plains of smaller rivers and creeks or within the unconsolidated deposits (soils, loess and glacial till) that overlie bedrock.

e. *Liner systems.* In order to minimize the risk of leakage from a lagoon into ground water systems, and to thereby minimize the risk to public health and safety posed by ground water contamination, no lagoon shall be constructed or operated, and no waste shall be deposited in a lagoon, unless and until a liner is installed on all surfaces on the bottom and side of the lagoon. Provision shall also be made to construct the side walls to prevent the migration of leachate and methane gas. The liner shall consist of two (2) components, as follows:

(1) An upper component that shall consist of a minimum thirty (30) mil thick geomembrane. Geomembrane components consisting of high density polyethylene (HDPE) shall be at least sixty (60) mil in thickness. The geomembrane component shall be installed indirect and uniform contact with the compacted soil component so as to minimize the migration of animal waste through the geomembrane should a break occur.

(2) A lower component that shall consist of at least two (2) foot layer of compacted soil with a hydraulic conductivity of not more than 1×10^{-7} centimeters/second (2.82×10^{-4} feet/day). The compacted soil liner, at a minimum, shall consist of at least two (2) feet of soil constructed of six (6) to eight (8) inch lifts compacted to ninety-five percent (95%) of standard Proctor density with the moisture content between two percent (2%) and four percent (4%) above the optimum moisture content. The pad shall be protected from the adverse effects of desiccation or freeze/thaw cycles after construction, but prior to the placement of animal waste. The soils used for this purpose shall be classified under the Unified Soil Classification System as CL, CH or SC (ASTM Test D487-85).

4. *Adequate water sources.* No health permit shall be issued or renewed for a CAFO unless the applicant demonstrates that an adequate supply of water is available for the proposed operations.

5. *Air quality.* All confinement areas and livestock lagoons shall be designed in such a manner as to avoid the unlawful degradation of air quality.

a. In no event shall the concentration of gases at the property line resulting from the operation of a livestock lagoon or confinement area exceed the following levels:

Gas	Maximum Allowable Concentration ¹	Exposure Period ²
Carbon Dioxide (CO ₂)	5000	not applicable
Ammonia (NH ₃)	5	not applicable
Hydrogen Sulfide (H ₂ S)	10	2 hours

Methane (CH ₄)	1000	not applicable
Carbon Monoxide (CO)	50	One hour
¹ In parts of pure gas per million parts of atmospheric air. ² The time during which the effects of the noxious gas are felt by an adult human or a one hundred fifty (150) pound livestock.		

6. *Soils.* The applicant shall demonstrate that the soils on the premises, including a plant filter area, are suitable for and compatible with the proposed CAFO operations with respect to the location of confinement areas and livestock lagoons and the application of liquid, slurry or solid animal waste onto or into the soil on the premises.

The owner shall also be responsible for the cost of cleaning or remediating any contamination or pollution, including any water resources (as defined in Sections 210.040(3)(a) and 210.040(3)(d) hereto), wells, or soils which become contaminated, polluted, defiled or soiled from leaks or spills from any lagoon or other waste storage facility on the premises. The mechanisms used to demonstrate financial assurance shall ensure that the funds necessary to meet the costs of cleanup and remediation, as established herein, will be available when they are needed. In establishing financial assurance, owners and operators shall choose from the following options set forth in Subsections (B), (C) or (D) of this Section. The amount of the surety bond, insurance coverage or self-insurance deposit shall be computed based on the following schedule for closure and remediation, which amount shall be:
 1. Not less than eight thousand dollars (\$8,000.00) per acre-foot of lagoon storage capacity for closure of a Class IA; seven thousand dollars (\$7,000.00) per acre-foot of lagoon storage capacity for closure of a Class IB; one thousand dollars (\$1,000.00) per acre-foot of lagoon storage capacity for closure of a Class IC or a Class II.
 2. Not less than the following for remediation activities:
 - a. Class II CAFO: thirty thousand dollars (\$30,000.00).
 - b. Class IC CAFO: fifty thousand dollars (\$50,000.00).

- B. *Surety Bond.* An applicant for a County health permit may demonstrate financial assurance by obtaining a payment or performance surety bond which conforms to the requirements of the Section. The bond shall be effective before the initial receipt of livestock into the facility, and a copy of the bond shall be filed with the County Treasurer and the County Commission. The surety company issuing the bond shall, at a minimum, be among those listed as acceptable sureties on Federal Bonds and Circular 570 of the U.S. Department of the Treasury. In addition, the bond shall:

2. Provide that the surety will become liable under the bond obligations when the facility fails to perform as guaranteed by the bond.
 3. If the surety cancels the bond, the facility shall obtain alternate financial assurance or cease operations.
- C. *Insurance.* An applicant for a County health permit may demonstrate financial assurance by obtaining insurance which conforms to the requirements of this Section. Insurance shall be effective before the initial receipt of livestock at the operation. At a minimum, the insurer shall be authorized to transact the business of insurance in Missouri. A copy of the policy shall be filed with the County Treasurer and the County Commission and shall provide
1. All funds will be available for any on-site or off-site cleanup resulting from the operation. The policy shall also guarantee that once environmental cleanup has begun, the insurer will be responsible for the paying out of funds to the facility or other persons authorized to conduct the cleanup an amount equal to the face amount of the policy.
 2. The policy shall be issued for a face amount at least equal to the cost estimate for financial assurance established pursuant to Subsection (A) above. The term "*face amount*" means the total amount the insurer is obligated to pay under the policy. Actual payment by the insurer will not change the face amount, although the insurer's future liability will be lowered by the amount of payments.
 3. The policy shall contain a provision allowing assignment of the policy to a successor facility. Said assignment may be conditional upon consent of the insurer, provided that such consignment is not unreasonably refused.
 4. The policy shall provide that the insurer may not cancel, terminate or fail to renew the policy except for failure to pay the premium. The automatic renewal of the policy shall, at a minimum, provide the insurer with the option of renewal at the face amount of the expiring policy. If there is a failure to pay the premium, the insurer may cancel the policy by sending notice of cancellation by certified mail to the facility and to the County Auditor one hundred twenty (120) days in advance of the cancellation. If the insurer cancels the policy, the facility shall obtain alternate financial assurance or cease operations.
- D. *Self Insurance.* An applicant for a County health permit may demonstrate financial assurance by depositing with the County Treasurer unsecured debentures, U.S. Government bonds or notes, or Certificates of Deposit issued by Federal or State chartered banks with a market value equal to or exceeding the sum of the financial assurance requirement established pursuant to the provisions of Subsection (A) above. Said financial instruments shall be held by the County Treasurer for so long as the provisions of this Chapter apply and may not be otherwise pledged by the facility. SECTION 210.060: VARIANCE

Where, due to an extraordinary or exceptional situation or condition of a specific piece of property, the strict application of this Chapter would result in peculiar and exceptional difficulties to, or an

exceptional and demonstrable undue hardship upon the owner of the property as an unreasonable deprivation of use as distinguished from the mere grant of a privilege, the County Commission may authorize, as part of the application for a County health permit, a variance from the strict application so as to relieve said demonstrable difficulties or hardships, provided the relief can be granted without substantial detriment to the public good and without substantially impairing the intent, purpose and integrity of the regulations, standards and criteria established in this Chapter. SECTION 210.070: APPLICATION OF CHAPTER

For purposes of this Chapter, the administrative fee amounts shall be as follows:

Classification of CAFO	Application Fee	Fee for Renewal of County Health Permit

There shall be established with the County Treasurer an escrow fund, for each application for a County health permit, for the purposes of reimbursing the County Commission for services rendered in connection with administration of this Chapter. Said escrow account shall include the proceeds of project review fees established pursuant to this Section. The funds contained in said escrow account shall be used solely to reimburse the County Commission for actual costs associated with administration of this Chapter, for actual services rendered for investigation, administration and processing of a County health permit including costs associated with the retaining and compensation of experts on scientific and technical issues associated with the application, and costs associated with public hearings. The County Treasurer shall disburse payments based upon billings supplied by the County Commission and approved by the County Commission.

After the approval, conditional approval or denial of a County health permit, the County Treasurer shall refund to the applicant any unexpended or unencumbered balance of the escrow account established pursuant to this Section for said application. (County Order No. 92-04, 12-30-04; County Order No. 04-10, 3-18-10; County Order No. 11-10, 5-24-10)

SECTION 700.020: PURPOSE, NECESSITY, AND INTENT

- A. The County Commission finds that the enactment of a Right-of-Way Management Ordinance for Public Utilities and other users of the Public Right-of-Way will have a beneficial impact on all of the citizens of the County. The use of the Public Right-of-Way is increasing due to the advancements in technology, changes in federal and state law, and increased demand for services from residents, businesses, educational institutions, governmental offices located in the County, and other public and private institutions. The County Commission further finds that the public convenience, health, safety and welfare can be best served by establishing regulatory power and procedures to protect the Public Right-of-Way, ensure the orderly development of infrastructure which serves the County, while at the same time not creating barriers which prohibit or effectively prohibit competition. The County Commission further recognizes the necessity for sound management practices in light of the increased use of the right-of-way and the fact that the right-of-way is a limited resource, and for treating each Right-of-Way User equitably and in a competitively neutral manner with considerations that may be unique to the technologies and situation of each particular Right-of-Way User. The County Commission further finds that such regulatory powers are vested in the County or such Persons as the County shall designate.

- B. The County seeks to serve the public by providing for the following:
 - 1. Permit requirements for Public Utility Right-of-Way Users and others seeking to Excavate or engage in a Special Use within a Public Right-of-Way;
 - 2. Management of the Public Rights-of-Way consistent with applicable Law; and

No Public Utility or Public Utility Right-of-Way User shall perform Excavation, as that term is defined in this Chapter, through, on, under, across, or within a Public Right-of-Way in any manner without first obtaining a Public Utility Right-of-Way Permit from the County as provided in this Chapter.
- B. All Persons not included in the definition of “Public Utilities” or “Public Utility Right-of-Way Users” who intend to undertake any of the following activities through, on, under, across, or within a Public Right-of-Way in any manner shall first secure a Special Use Right-of-Way Permit issued by the Director pursuant to this Chapter, to-wit: encroaching or Excavating on a Public Right-of-Way, laying, locating, erecting, removing, installing, constructing, maintaining, operating, or repairing poles, equipment, facilities, devices, materials, apparatuses or media of any kind for any purpose whatever.

All Public Utilities intending to undertake an activity through, on, over, under, across, or within a Public Right-of-Way that is not encompassed within the definition of Excavation, but which encroaches upon or impedes the use of the Public Right-of-Way, or constitutes the placement or suspension of a Facility over the Public Right-of-Way without Excavation shall first secure a Special Use Right-of-Way Permit issued by the Director pursuant to this Chapter.

When relocation is necessary, utilities shall be relocated within or outside the roadway right-of-way as required under the circumstances, as determined by the Director of Public Works in order to complete the project. In roadways with a public sidewalk, utilities shall be located between the back of curb or edge of roadway and sidewalk. Any damage to existing roadways, structures, and/or sidewalks shall be repaired in accordance with county specifications. See the County regulations for details and requirements.

Surfacing shall be as shown on the plans or permit. Length of pipe shall be determined by depth and location of ditch. (minimum 32' length of minimum 15" diameter pipe). See plans. This drawing illustrates driveway details for minimum situations. Traffic volumes, safety considerations, drainage considerations, local requirements, etc., may dictate more extensive improvements than illustrated. See the County regulations for details and requirements.

No part of the driveway excluding tapers shall be constructed beyond the property frontage. Surfacing shall be as shown on the plans or permit. Length of pipe shall be determined by depth and location of ditch. (minimum 32' length of minimum 15" diameter pipe). See plans. This drawing illustrates driveway details for minimum situations. Traffic volumes, safety considerations, drainage considerations, local requirements, etc., may dictate more extensive improvements than illustrated. See the County regulations for details and requirements.

DRIVEWAY TYPICAL SECTION

Not to Scale

For 1 to 1700 vehicles per day on County roadway, use 3:1 driveway side slope (or 6:1 where practicable). For over 1700 vehicles per day on County roadways, use 6:1 slope (or flatter where practicable). Surfacing shall be as shown on the plans or permit. In order to minimize the use of 6:1 sloped end pipe sections on new construction and where possible on existing roadways, the location of the drainage pipe shall be beyond the clear zone distance as shown in the current edition of the "Roadside Design Guide". This drawing illustrates driveway details for minimum situations. Traffic volumes, safety considerations, drainage considerations, local requirements, etc., may dictate more extensive improvements than illustrated. See the County regulations for details and requirements.

Figure 7: Road Crossing Pavement Restoration

Road crossings requiring pavement restoration are strongly discouraged. The preferred method is boring under the roadway. Any approved plan that calls for cutting and/or removal of roadway surface shall provide for repair of the roadway according to specifications as illustrated above. Saw cuts shall be no more than one-half full depth of existing pavement to produce jagged edges. Trench widths shall be adequate for utility to be placed and backfilled in adherence to county specifications. See the County regulations for details and requirements.

Figure 8: Mailbox Turnouts and Supports

MAILBOX TURNOUTS AND SUPPORTS

Not to Scale

AASHTO has prepared a guide for erecting mailboxes on highways that recommends a nominal 4"x4" square or 4 1/2" diameter wood posts or 1 1/2" to 2" standard steel or aluminum pipe posts, embedded by no more than 24 in. into the ground, as the maximum strength supports for mailboxes. See figure above of mailbox assembly standards.

During the design stage of a project within roadway right-of-way, any mailbox support which is noted to be in gross violation of the approved mailbox supports should be noted by location. Notice of these mailboxes shall be sent to the local postmaster requesting their assistance in requiring the mail patron to change the mailbox support to comply with national standards and reduce the potential safety hazard. The file shall document the fact that such mailboxes were checked and the action taken through the local postmaster. The Director of Public Works should be furnished copies of necessary correspondence for use after award of the project contract or permit approval.

Any existing mailbox turnouts or mailboxes damaged as part of work within the right-of-way shall be repaired in accordance with county specifications.
